

## SAMPLE SURVEY

The purpose of this survey is to gather information concerning the opinions and experiences of residents in our strata complex about second-hand smoke. We are aware of a number of residents who are suffering from second-hand smoke infiltrating their homes from neighbouring units, and it may be time to explore the option of adopting a non-smoking bylaw that would restrict or prohibit smoking in the complex. **Indicating your suite number is optional.**

Upon completion, please return to [indicate name and/or location].
